Fewer kids have after-school jobs, they walk less, some schools lack physical education classes and other reasons. A correlation in TV watching and overeating has also been found in other studies. Dr. Ash Hayes, Executive Director of President's Council on Physical Fitness suggests that such obesity tends to cause low self-image, hypertension, and may result in adult diabetes.

Ben Kinchlow discusses the growing problem of runaways in America. It is estimated that one million teens will run away from home this year. Many run to escape physical or sexual abuse, and others aren't even wanted. Ben interviews Al Palmquist, founder and president of SAFEHOUSE, a ministry to runaways. They discuss the fact that most of these youth have no positive guidelines nor standard of morality in the home.

Sam Walker, CBN Reporter, gives a feature story on the sexual revolution resulting in unprecedented teenage pregnancy. Teen pregnancies have doubled between 1960 and 1980, with 45% of them being aborted. 20,000 abortions are being performed on girls under 14 annually. Dr. Nancy Welch, Director of Chesapeake, Va. Health Clinic says most teenagers receive their sex education from television. In the course of a year, the average viewer will see over 9,000 scenes of suggested intercourse.

PROBLEM	PROGRAM TITLE	SOURCE	TYPE	AIR DATE & TIME	DURATION
YOUTH (cont'd)	Dr. Clifford and Joyce Penner, authors of <u>A Gift For All Ages: A Family Handbook on Sexuality</u> , contend that teenagers lack the proper understanding of sexuality and how to control their feelings. It is suggested that parents should start sex education when their children are fifth graders.

	Susan Howard interviews Reverend Greg Laurie of Harvest Christian Center and author of <u>The Final Cry</u> . They discuss teen suicide, noting that the suicide rates for 10 to 14 year olds have tripled recently. 71% are from broken homes; females try more but males succeed more. Some warning signs are use of drugs, eating and sleeping habit changes, deep depression, giving away possessions, and talking about death frequently. He urges open communication between parents and children.

	Pat Robertson introduces the feature story of Dennis and Diane Mason, a couple with six children of their own who have adopted 39 children in all, among them Vietnamese and other ethnic groups, and some handicapped. They currently have over 60 children in their care and they decline any welfare aid. They show what love and caring can do and say that God supplies their needs.				
DRUGS/ALCOHOL (committed above)	<u>Praise The Lord 0918-87</u>	N	PA/O	09-18-87 10:00 p.m.	1:59:48
	John and Ruth Ann Jacobs discuss ways to help youth who are on drugs and ways to steer them from drugs with Bill and Ken Henderson, both former addicts, now in a street ministry called "Soldiers for Jesus". They share techniques in giving youth alternatives to drugs, talking to 15 year olds who, they feel, are looking for something to show their rebellion. They teach that Jesus gives a high far superior to any drug.			09-21-87 5:00 p.m.	1:59:48

ISSUES AND ILLUSTRATIVE PROGRAMS

<u>ISSUE/PROBLEM</u>	<u>PROGRAM TITLE</u>	<u>SOURCE</u>	<u>TYPE</u>	<u>AIR DATE & TIME</u>	<u>DURATION</u>
AIDS	<u>Miami Praise The Lord 1211-87</u>	L	PA/O	12-11-87 11:00 a.m.	1:59:48
	Hosts Pastor Michael and Regina Utterback introduce Rev. Don Olson, Founder and Chairperson of Miami's "Inter-faith Clergy on AIDS." Rev. Olson discusses how the Church (Christians) should respond to AIDS. He says most agencies deal with the AIDS patient's physical needs. The Church is to transcend that by adding mental and spiritual support. However, the approach should not be judgmental. Inter-faith Clergy on AIDS strongly advocates consciousness-raising education on AIDS.			12-13-87 3:30 a.m.	1:59:48
	<u>The 700 Club 1021-87</u>	N	PA/O	10-21-87 3:00 p.m.	59:30
	Ben Kinchlow introduces a news feature and discussion of the AIDS epidemic. They report on the march of 100,000 gays on Washington. Dr. Harold Kaffe, Chief of AIDS Epidemiology in Washington says there is a small risk of AIDS to heterosexuals. There are now 40,000 AIDS cases and only 276 are heterosexuals, and all but three were bi-sexual or drug addicts. Michael Schwartz, co-author of <u>Gays, AIDS, and You</u> contends we need mandatory reporting and routine testing. He further contends that AIDS has been a politically protected disease since it has occurred mostly among gays.

AIDS (CONT'D)	<u>Joy 1123-87</u>	N	PA/O	11-23-87 6:30 a.m.	56:48
	<p>Bob Owen, author and owner of Owens Publishing Co., discusses with Jim McClellan the subject of AIDS and his book <u>Roger's Recovery-AIDS</u>. Bob tells the story of how Dr. Robert Smith, M.D. treated AIDS patient Roger with nutrition only, beginning with only fruit juice for thirty days. Slowly Roger recovered fully by eating only natural foods and a careful diet. Owens discusses ways AIDS is spread: hypodermic needles, homosexual lifestyle. He feels that the toxins we eat through our foods and water are a major cause of cancer, and further contribute to the rapid progress of AIDS.</p>				
	<u>Joy 1125-87</u>	N	PA/O	11-25-87 6:30 a.m.	56:48
	<p>Cliff Cartland, author of <u>You Can Protect Yourself and Your Friends From AIDS</u>, shares with Jim McClellan some of his research on how to avoid contracting AIDS. He allays fears that it is easily contracted, but rather it is largely transmitted through homosexual sexual intercourse or using contaminated needles for intravenous injections. Since the virus is carried in the blood, the blood can contaminate. Swimming pools can be protected with chlorine. He warns parents to guide their young people since television and the role models presented really make teenagers believe that sex outside marriage is acceptable.</p>				
COST OF LIVING/ INFLATION	<u>The 700 Club 1102-87</u>	N	PA/O	11-02-87 3:00 p.m.	59:30
	<p>Ben Kinchlow interviews Sharon Runick with an organization called "Straight From The Heart," which focuses on helping people cope with loss of jobs, and the needs of their families. He reports on how one group in Princeton, West Virginia, who depend on the coal industry which is now in a low decline, helped alleviate hunger in that area. One church fed 15,000 people last year, beginning with \$500.00 seed money from "Operation Blessing" of the 700</p>
